Сабақтың соңы (10min)	<p>Speaking on maps • Distribute treasure maps to learners. Learners have different maps with the ready routes (P). Give them time to think and they tell the directions in the map to each other. The assessment criteria are on slide 5. The partners should check each other. *Differentiation: pair up less able learners with more able ones. “Blind treasure seeker” Beforehand hide two boxes with “Treasure in class. “Divide the class into two teams and explain the assessment criteria of the game. Rule: In each team there is a pirate who is seeking the treasure. Sweets are treasure for teams. While the pirate is out of the room the other members of the team make up direction to their team pirate so that he can find the treasure in 2 minutes time. Then the team divides the direction imperatives so that each member take part. The blindfolded pirate listens to his team’s directions and finds the treasure. Should the guide make a mistake, he is out of the game. And if time is out they will lose the game. Assessment criteria:</p> <ul style="list-style-type: none"> <li>• All members take part (each says an imperative)</li> <li>• Be organized;</li> <li>• Don't interrupt each other;</li> <li>• Don't make a mistake in direction;</li> <li>• Be positive;</li> <li>• Get treasure in 2 minutes;</li> </ul> <p>*Differentiation: more able learners give support to less able ones in group work.</p>
